

## NOT ALL FOGGERS ARE CREATED EQUAL

The Plan B G-IV is a skid or wheel mounted ULV chemical dispersal unit powered by 5-hp Briggs & Stratton gasoline engine. Designed for outdoor and indoor applications, the powerful discharge enables the operator to cover relatively large areas quickly and effectively.

**ALWAYS FOLLOW CHEMICAL LABEL INSTRUCTIONS**

The Plan B G-IV is easy to operate and maintain. With a chemical droplet spectrum with 85% in the 1-20 micron size range, this true ULV design is ideal for mosquito and other pest control. The 6 gallon chemical tank allows for fewer fill-ups in large treatment areas.

## Recommended Uses

Food/Commodity Storage

Warehouses

Distribution Centers

Golf Courses

Parks

Sports Fields

Resorts

Small Municipalities

## Specifications

Skid Mount: 30"x20"x26" 76cmx51cmx66cm

Wheel Mount: 30"x20"x33" 76cmx51cmx84cm (112cm with handle)

Skid/Wheel Mount Crated: 35"x30"x40" 89cmx76cmx102cm

5 HP Recoil Start Briggs & Stratton Engine

6 Gallon Chemical Tank

Adjustable Flow Meter - up to 10.5opm

Droplet Size - 85% 1-20mmd

## Options

Wheel Mount 5 HP Briggs & Stratton Engine

Wheel/Skid 5 HP Electric Start Honda Engine
